

Kiwiseeds - Auto Power Plant AF

The famous Power Plant (PP) has been for many years the staple of Dutch cannabis production, and one of the highest yielding varieties in the world! Kiwiseeds have spent a lot of time breeding with this plant and can now proudly present the arrival of our new baby.

We have successfully produced Power Plant in an Auto-flowering strain. 9 weeks flowering time and good yields of high THC product can be expected from Auto PP! It's a fantastic strain that will grow almost anywhere.
